KATHERINE RIVER CATCHMENT LOCATION MAP

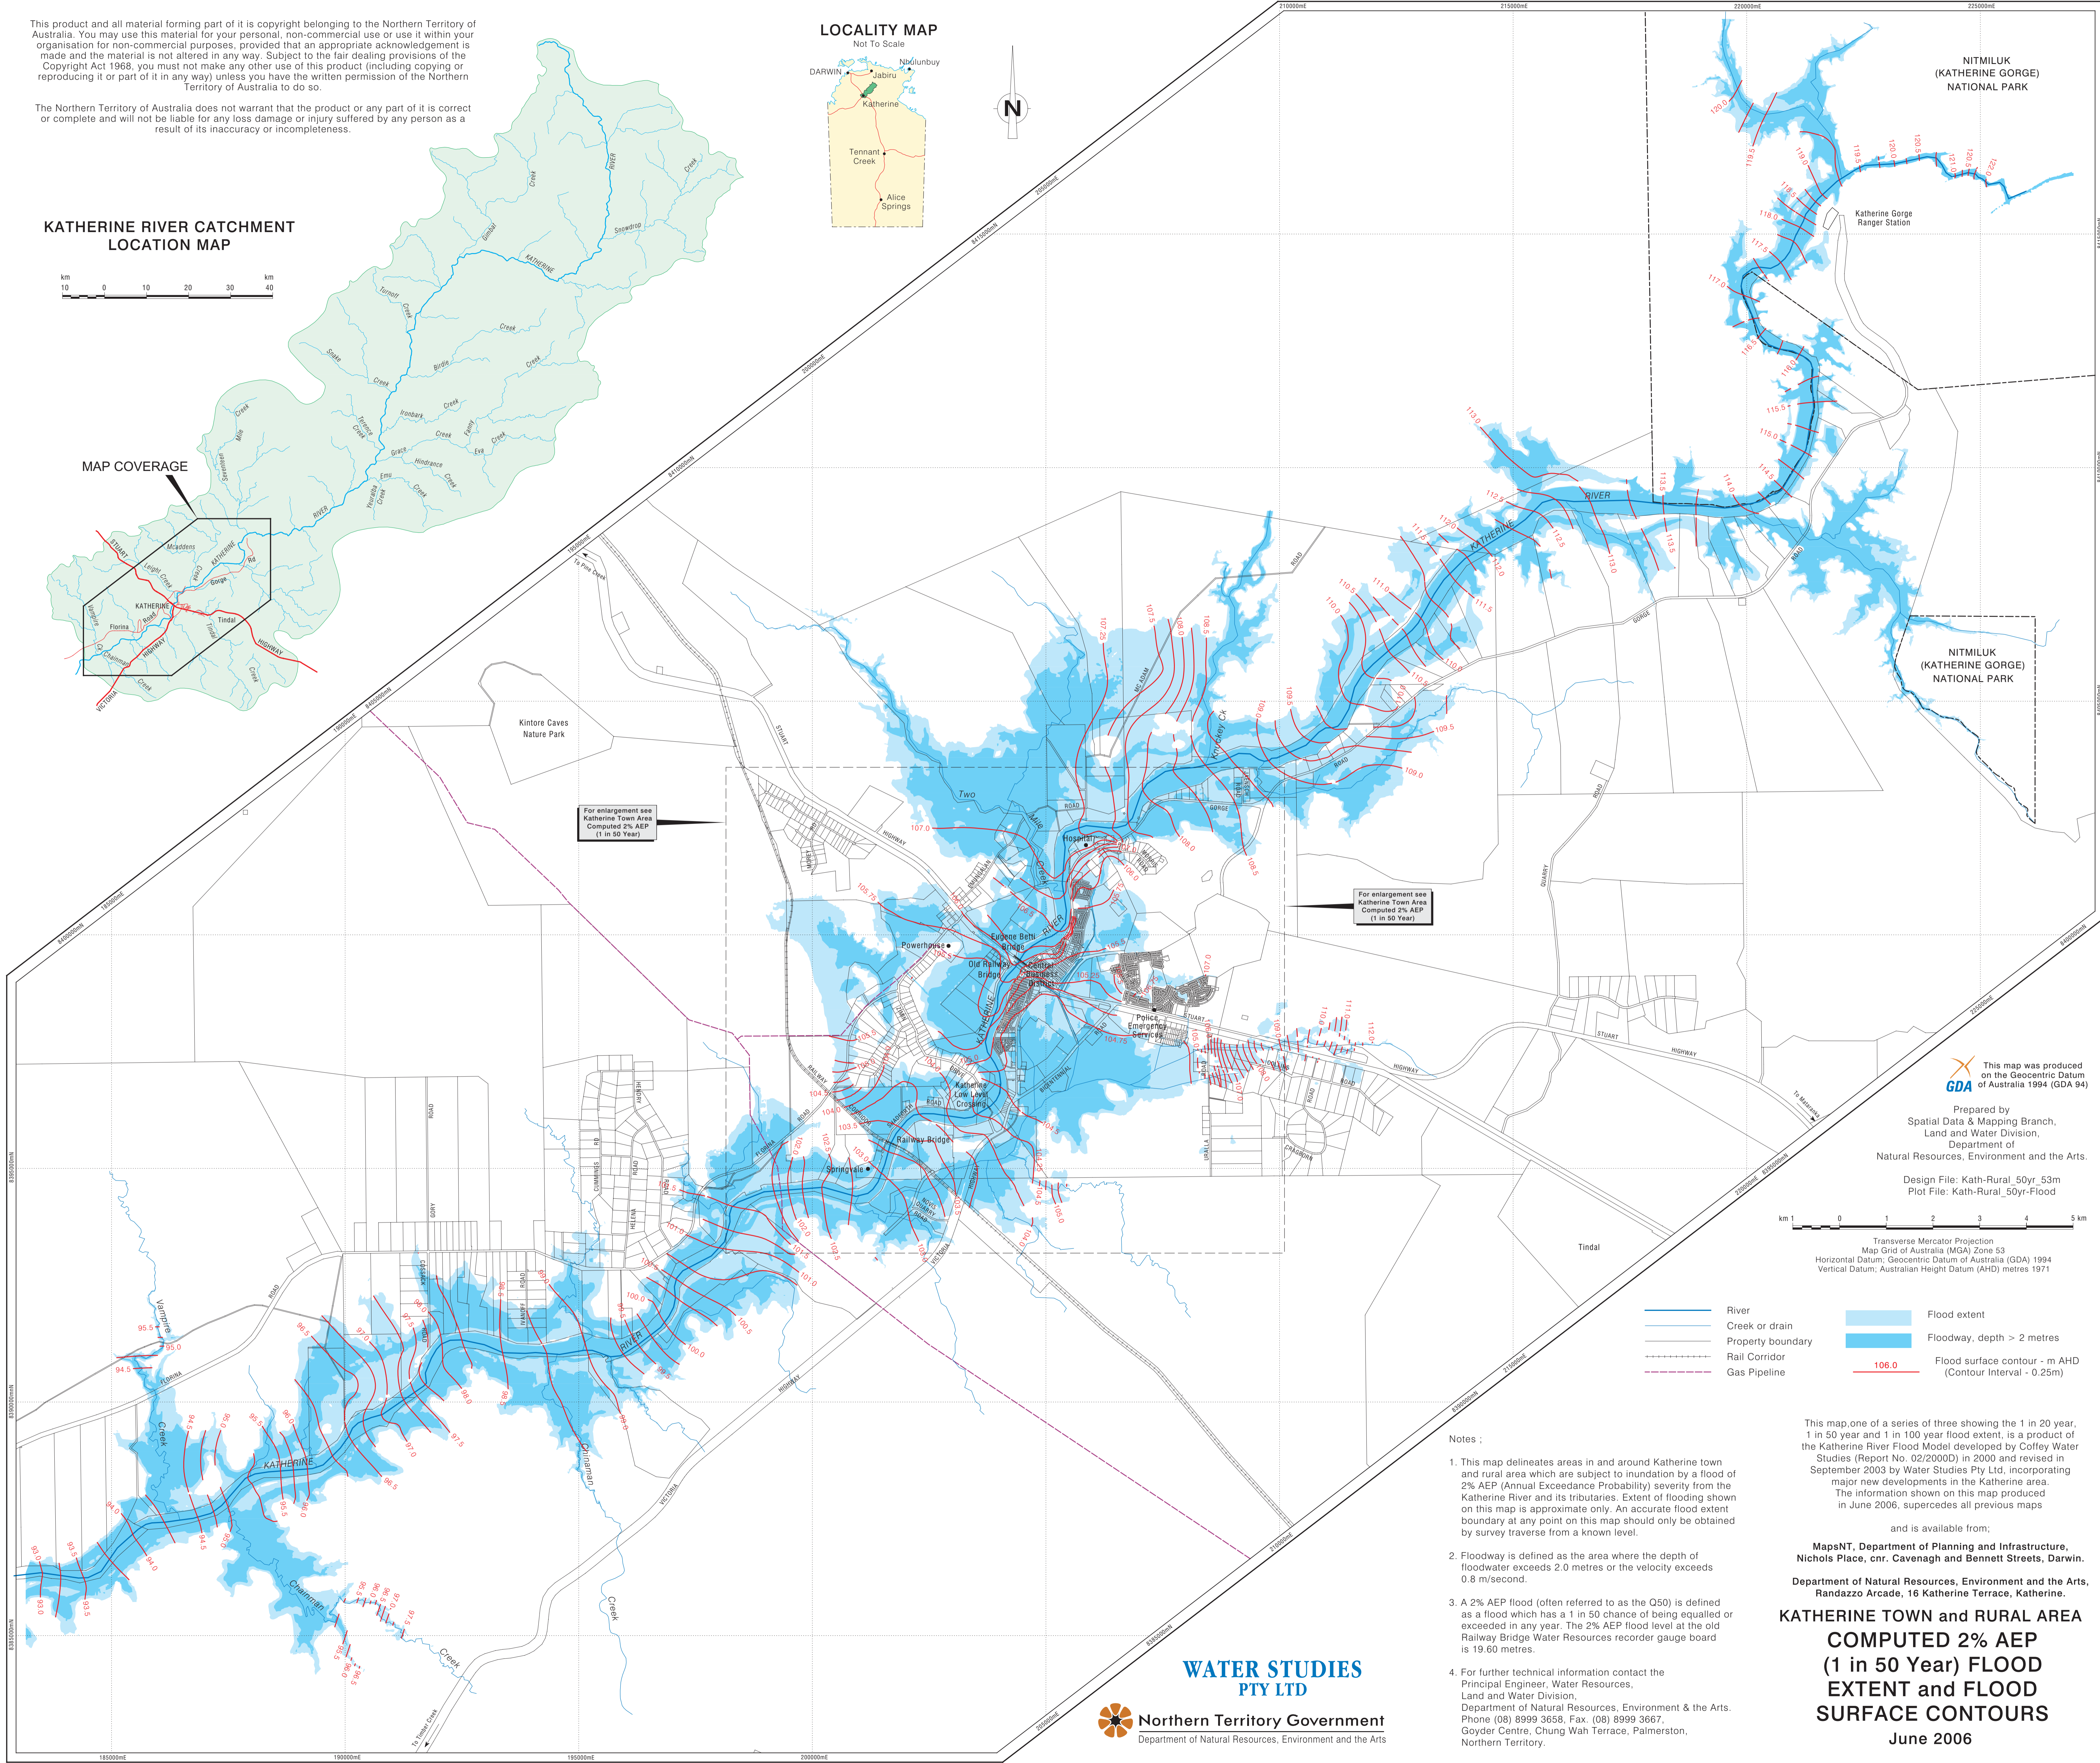

MAP COVERAGE

LOCALITY MAP

Not To Scale

For enlargement see Katherine Town Area Computed 2% AEP (1 in 50 Year)

For enlargement see Katherine Town Area Computed 2% AEP (1 in 50 Year)

This map was produced on the Geocentric Datum of Australia 1994 (GDA 94)

Prepared by Spatial Data & Mapping Branch, Land and Water Division, Department of Natural Resources, Environment and the Arts.

Design File: Kath-Rural_50yr_53m
Plot File: Kath-Rural_50yr-Flood

Transverse Mercator Projection
Map Grid of Australia (MGA) Zone 53
Horizontal Datum: Geocentric Datum of Australia (GDA) 1994
Vertical Datum: Australian Height Datum (AHD) metres 1971

	River		Flood extent
	Creek or drain		Floodway, depth > 2 metres
	Property boundary		Flood surface contour - m AHD (Contour Interval - 0.25m)
	Rail Corridor		
	Gas Pipeline		

- Notes:
- This map delineates areas in and around Katherine town and rural area which are subject to inundation by a flood of 2% AEP (Annual Exceedance Probability) severity from the Katherine River and its tributaries. Extent of flooding shown on this map is approximate only. An accurate flood extent boundary at any point on this map should only be obtained by survey traverse from a known level.
 - Floodway is defined as the area where the depth of floodwater exceeds 2.0 metres or the velocity exceeds 0.8 m/second.
 - A 2% AEP flood (often referred to as the Q50) is defined as a flood which has a 1 in 50 chance of being equalled or exceeded in any year. The 2% AEP flood level at the old Railway Bridge Water Resources recorder gauge board is 19.60 metres.
 - For further technical information contact the Principal Engineer, Water Resources, Land and Water Division, Department of Natural Resources, Environment & the Arts. Phone (08) 8999 3658, Fax. (08) 8999 3667, Goyder Centre, Chung Wah Terrace, Palmerston, Northern Territory.

This map, one of a series of three showing the 1 in 20 year, 1 in 50 year and 1 in 100 year flood extent, is a product of the Katherine River Flood Model developed by Coffey Water Studies (Report No. 02/2000D) in 2000 and revised in September 2003 by Water Studies Pty Ltd, incorporating major new developments in the Katherine area. The information shown on this map produced in June 2006, supercedes all previous maps

and is available from:
MapsNT, Department of Planning and Infrastructure, Nichols Place, cnr. Cavenagh and Bennett Streets, Darwin.
Department of Natural Resources, Environment and the Arts, Randazzo Arcade, 16 Katherine Terrace, Katherine.
